IN preparing the present volume, the Publisher's aim has been to attain the greatest accuracy and extent of useful local information, of which such a Work is capable. To that end, the Town of Dundee and its neighbourhood, as well as the villages of Broughty Ferry and Lochee, have been carefully surveyed by competent persons; and a correct Roll of all the principal inhabitants, with their occupations and places of business and residence, has been obtained, and afterwards compared with the Police Lists. Prospective changes have been noted, as far as they could be ascertained, by enquiries and advertisements inviting such information.

Notwithstanding every care and precaution, it cannot but be expected, in a work of this kind, that a few inaccuracies *may* have occurred; and, on this subject, the Publisher considers that it is only justice to himself and the parties he employed, to say, that portions of some of the streets have been found inconsistently *numbered*, which, in a few cases, will cause partial discrepancies. However, he has the satisfaction to believe, that, for all practical purposes, this important part of the DIRECTORY will be found quite unobjectionable.

The Publisher has much confidence in referring to the other LISTS and subjects of information of which the volume is composed. They have all been obtained from the best sources, and revised with the greatest care. Since they were obtained and printed, a few changes, not affecting their utility, have occurred, which are stated in the note of corrections as

far as they could be ascertained. He embraces this opportunity of expressing his grateful thanks to those gentlemen who have so kindly and freely afforded him the necessary information for the compilation of these varied Lists.

On the whole, the Publisher trusts that the DUNDEE DIRECTORY will be found a very complete and useful book of reference. ¶It has been his object to render it so, for which purpose neither trouble nor expense have been spared.

Its publication has been delayed rather longer than he at first calculated upon, owing to the unavoidable expenditure of time and labour which has been found necessary ; and he ventures to hope, that it will meet with such approbation as will induce a future publication when it becomes requisite.

To his advertising friends, the Publisher begs to return his best thanks. He has been amply and liberally patronised in that department, and sincerely hopes that the objects desired will in all cases be fully realised.

At those marked \*, all paid letters and papers must be by postage stamps

MONEY ORDERS.—At the head office, Reform Street, only. Hours from 9 A.M. to 1 P.M., and from 2 to 6 P.M. Sums not exceeding £2, charged 3d; up to £5—6d. They must be presented before the end of the second month, or a new Order will be necessary, for which a second commission must be paid. If beyond twelve months, the amount will not be paid.

REGISTRATION LETTERS.—These can be registered on payment of 6d in money. The postage in stamps if going inland, or stamps or money if going abroad. They must be posted half an hour before the Box closes. To France and Prussia, an additional fee is required. To other foreign countries and the colonies, registration extends only to the port of despatch.

CAUTIONS.—No explosive nor perishable articles can be transmitted, nor glass, sharp instruments, nor any thing dangerous or calculated to injure the Mail bags and contents. Letters to hot climates should be wafered, as wax is liable to melt.

POSTAGE STAMPS may be used for printed votes and proceedings in Parliament, and on foreign, colonial, and ship letters, &c., *outwards*. If any letter, however, addressed to places beyond sea, bear an insufficient number of stamps, it will be sent to the Dead-Letter Office, to be returned, in all practical cases, to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom from the colonies or foreign countries. These regulations are applicable to newspapers in those cases where they are liable to postage. If the stamps affixed to letters have been mutilated or defaced, the letter will be liable to the unpaid rate.

RATES OF INLAND POSTAGE.—Not exceeding half an ounce weight, 1d; not exceeding one ounce, 2d—two rates being added for every ounce. Prepayment is optional, but if not adopted, the charge is double at delivery. Packages exceeding four ounces must be prepaid. Letters or packets must not exceed *two feet in length*, except Parliamentary petitions, addresses to her Majesty, printed votes or proceedings of Parliament.

Printed Parliamentary papers may be sent by post from place to place in the United Kingdom, or to the colonies by the packets; and the proceedings of colonial legislatures sent by packet may be received at the following rates: If not exceeding 4 ounces, 1d; under 8 ounces, 2d; and under 12 ounces, 3d, and so on; and if sent to the colonies by private ship, they are charged double these rates. The privilege as to the colonies does not embrace the Mediterranean packet conveyance to India. Papers must be without covers, or in covers open at the sides, and must have no enclosures or writing other than the address. In papers passing inland, prepayment is optional. Petitions and addresses to her Majesty pass free. Members of Parliament may receive

petitions to either house if not exceeding 32 ounces, and sent without covers, or in covers open at the sides.

Printed books, magazines, reviews, pamphlets, and music, whether British, colonial, or foreign, may be transmitted by post through the United Kingdom at the following rates:—Each packet not exceeding 1 lb., 6d; not exceeding 2 lb., 1s; not exceeding 3 lb., 1s 6d, and so on—6d being charged for every lb. or part of a lb. The following conditions must be observed: Every packet must be sent without a cover, or in a cover open at the ends or sides. It must contain a single volume only—the several sheets or parts thereof, when there are more than one, being sewed or bound together; and it must not exceed two feet in length. The name and address of the sender may be written or printed on any such book, &c., or on the cover thereof, in addition to the address; and any other wording may be on any leaf of any such book, &c. so sent, or on the binding thereof, provided that all such last mentioned writing be on one page only of the book or binding. The postage must be prepaid in full, by affixing outside the packet, or on its cover, the proper stamps. If any of these conditions be violated, the packet will be charged as a letter, and treated as such in all respects.

NEWSPAPERS.—Stamped British newspapers pass free from one place to any other place in Great Britain; but when addressed to a person residing within the delivery of the post town where it is posted, 1d is charged on each paper. British and colonial newspapers pass free to and from the colonies by the mail packets. This privilege includes to and from the East Indies by the Southampton packets; and if sent by the monthly closed mails *via* France, they are charged 3d, and must be prepaid. When the conveyance is by private ship, the postage is 1d. All newspapers must be without cover, or in covers open at the sides; and any mark or writing is allowed to be put on newspapers (passing from place to place in the United Kingdom, but not to the colonies or foreign parts) if a penny label stamp is affixed either to the cover or outside of the paper; but no writing is permitted other than the address on the cover, nor any enclosure, under penalty of it being charged the full letter rate of postage. It is recommended that the address be written, not only on the cover, but on some exposed part of the paper. All newspapers sent out of the Kingdom must be posted within seven days after publication.

## COLONIAL AND FOREIGN MAILS.

Letters for Belgium and France, and to countries passing through them, are charged according to the following scale:—

|                              | BRITISH RATES. | FOREIGN RATES. |
|------------------------------|----------------|----------------|
| Under $\frac{1}{4}$ oz. .... | 1.....         | 1              |

The British charge increasing two rates for every additional oz., and the foreign, one rate for every additional *quarter* of an ounce

In the following lists, the route by which letters will be sent, if not specially addressed, is that which is first named; but it is advisable, in all cases, to specify by which route they are wished to be sent. If, however, any letter happens to be posted without being paid, although addressed by a route which requires prepayment of the postage of the letter, it will not be returned to the writer, but will be despatched, if possible, by another route *unpaid*

M denotes the morning departure at 7 25 A.M.

A ... the afternoon do. at 4 35 P.M.

## EAST OF SCOTLAND LIFE ASSURANCE COMPANY CONTINUED.

## SPECIAL ADVANTAGES OFFERED BY THIS COMPANY.

- I.—The entire Profits of this Company are divided every three years, in such a way as to secure to the participating Policy Holders all the advantages which can possibly result from Assurance in a purely Mutual Society, together with the additional and absolute security afforded by the obligations of this Company.
- II.—The Tables of this Company embrace an entirely new system, entitled, Progressive Life Assurance, by which the outlay by the Assured is reduced to about one-half of the usual amount.
- III.—The Policies of the Company are expressly declared to be indisputable, except on the plea of fraud ; and the obligation of the Company thereon is unrestricted in any way.
- IV.—Moderate charges for Foreign Residence in unhealthy climates.
- V.—The Directors are prepared to grant or purchase, on moderate terms, every description of pecuniary benefit dependent on the duration of one or more lives.

THE ORDINARY DIRECTORS, impressed with the general feeling that prevails of the want of a complete and satisfactory scheme for enabling the Heads of Families and others similarly situated to provide for their wives and children or dependants in the event of their own premature decease, now submit the following scheme which they can with confidence recommend as well adapted to the circumstances of

CLERGYMEN, SALARIED OFFICIALS, ANNUITANTS,  
PROFESSIONAL MEN,

and all others who support themselves and their families or dependants from the produce of their own exertions, or from other sources ceasing at death.

The Scheme now submitted embraces the following separate Tables, viz. :—

TABLE I.—For enabling Husbands to secure Life Annuities of any desired amount to their Wives, in the event of their becoming Widows, by small annual payments, ceasing at the death of either Husband or Wife—the Annuities continuing during the remainder of the lives of the Widows.

[Continued.]

EAST OF SCOTLAND LIFE ASSURANCE COMPANY CONTINUED.

TABLE II.—For enabling Fathers to secure to their Children Life Annuities of any amount payable to each Child until completion of its twenty-first year, in the event of the Child having been left an Orphan before that time, by small annual payments to the Company, ceasing at death of either Father or Child.

TABLE III.—For enabling Fathers to secure to their Children Endowments certain of any amount, payable to each Child on completion of its twenty-first year, in the event of the Child having been left an Orphan before that time, by one payment to the Company, at the entry of each Child.

These Tables are equally applicable for general purposes : Table No. I. for enabling the Heads of Families to provide Life Annuities to their surviving Sisters, Daughters, Nieces, or other persons who may be dependent on them for support ; and Tables Nos. II. and III. for the Education and Endowment at coming of age of surviving Nephews, Wards, and others similarly situated.

Copies of these Tables, and all information on this Scheme, and on the general business of the Company, will be promptly supplied on application at any of the Offices or Agencies.

## LIFE ASSOCIATION OF SCOTLAND.

---

THE amount of Annual Expenditure required by most Offices for a Life Assurance, deters many from adopting that mode of providing for those dependent on them. They would more readily make such a provision, (admitted to be in most cases a duty,) could it be shewn them that an Assurance may be effected on such a system, as to require, *after a few years*,—when, in all probability, their other expenses will be increased,—the payment of a comparatively small sum, scarcely more than *one-half* of the amount usually necessary.

### THE LIFE ASSOCIATION OF SCOTLAND,

(*Founded 1839, and Incorporated by Royal Charter*,) is the only Office in Scotland constituted on the principle of reducing the expense of Life Assurance to the lowest scale, consistent with perfect and permanent security to the Assured.

ON THE 5TH APRIL, *in every year*, the precise state of the affairs is ascertained by a detailed valuation. The divisible Surplus is then apportioned to all Policy-holders of five years' standing, and the share of each is handed to him *in cash* when he pays his current year's Premium. By this system the Policy-holders enjoy *during their own lives* the Surplus Funds or Profits, and the Premiums payable are reduced to a comparatively small amount.

The following are examples of the Premiums payable in the present year by Policy-holders of five years' standing :—

| Age at Entry. | Policies of £100. | Policies of £500. | Policies of £1000. | Policies of £5000. |
|---------------|-------------------|-------------------|--------------------|--------------------|
| 20            | £1 4 0            | £6 0 0            | £12 0 0            | £60 0 0            |
| 30            | 1 11 7            | 7 17 11           | 15 15 10           | 78 19 2            |
| 40            | 2 2 4             | 10 11 8           | 21 3 4             | 105 16 8           |

During last year, (the tenth of the Society,) 500 New Policies were issued for Life Assurances, amounting to £220,000.

EDINBURGH—(Head Office), 22 GEORGE STREET.

 GLASGOW, .....59 ST VINCENT STREET.

The following are the advantages given by this Company:—  
**MUTUAL ASSURANCE**, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise assured with the Office, affords the most undoubted security to all classes of Assurers.

**NINE-TENTHS** of the **WHOLE PROFITS** Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

**AN INTERMEDIATE BONUS** paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual Division are thus given, without its attendant evils.

The **MOST EQUITABLE PRINCIPLE** of DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class Lives shall not suffer by any undue Bonus being paid away to those who may die early.

**RATES OF PREMIUM EXTREMELY MODERATE.**

The Non-Participation Scale is equivalent to a present Bonus of considerable amount, when compared with most other Offices.

The benefits of the Participation Plan of Insurance are exhibited in the following examples of

ECONOMY combined with SECURITY.

The RATES of Premiums are lower than those of any other Office, which entitle the assured to participate in the profits, and *considerably lower* than those of any other *Mutual Assurance Society*.

The WHOLE OF THE PROFITS are divided every fifth year among the assured, and a BONUS is added, after the Payment of the Fifth Annual Premium, to every Policy effected on the Participating Scale, if a claim accrue thereon prior to the next division of profits.

The BONUSES declared at the three former divisions, (arising from three-fourths only of the profits,) averaged 16, 31, and 36 per cent., respectively on the amounts of Premiums paid.

The BONUS declared in 1849, (arising from the whole of the profits,) being the result of the operations of the Society during the last five years upon the *Mutual Principle*, averaged 62½ per cent. on the Premiums received.

## LIFE ASSURANCE.

THE system adopted by this Company gives to the Assured every advantage Life Assurance is capable of affording, and the rapid progress the Company's Life Business has made, and is making, shews that it is duly appreciated by the public.

At 31st December last the sum insured by subsisting Policies was £2,342,876; the Annual Revenue, £104,984 10s. 8d.; and the Accumulated Premiums, £523,568 1s. 6d.

Assurances may be effected either with or without participation in the surplus.

Those who pay the participating rate share in the profits to the extent of Four-Fifths, or 80 per cent., without incurring the responsibility of Mutual Assurance.

At the last investigation, 31st December 1844, the Bonus or addition made to the *Participating Policies* was at the rate of £1 10s. per cent. on the sum insured for each Premium paid during the Septennial Period, reckoning previous Bonuses as sums insured, and as such entitled to participate.

Thus, for example, a policy of £5000, having £818 2s. 6d. of previously vested additions, was ranked for...£5818 2 6 and had a further addition made to it of ..... 610 18 0

and will, according to the principle above-mentioned, be ranked at next division of profits as a Policy for..... } £6429 0 6

## NORTH BRITISH INSURANCE COMPANY CONTINUED.

Tables of Increasing Premiums have been formed on a plan peculiar to this Company, whereby Assurance may be effected for the whole of life, the Premium commencing very low, and gradually increasing during the first five years, after which a uniform Premium is paid during the remainder of life.

## SPECIMEN OF THE TABLES.

*Premium for Assuring £100.*

| Age. | First Year. | Second Year. | Third Year. | Fourth Year. | Fifth Year. | Remainder of Life. |
|------|-------------|--------------|-------------|--------------|-------------|--------------------|
|      | £ s. d.     | £ s. d.      | £ s. d.     | £ s. d.      | £ s. d.     | £ s. d.            |
| 30   | 1 3 9       | 1 5 2        | 1 6 8       | 1 8 4        | 1 10 0      | 2 10 5             |
| 40   | 1 11 10     | 1 13 9       | 1 15 10     | 1 18 1       | 2 0 6       | 3 8 3              |

This Table is not only suitable to those who, from the prospect of an increasing income, or other circumstances, prefer paying a smaller sum during the first few years, but is also decidedly the best mode of Insuring with the view of securing the repayment of temporary Loans. It is preferable to a period Policy, as it may be continued to the end of Life, without requiring new certificates of health, or incurring a higher rate of Premium.

## FIRE INSURANCE.

The Company Insures against FIRE—Silk, Cotton, Woollen, and Flax Mills, Buildings of all descriptions, Furniture, Stock in Trade, Merchandise, Agricultural Stock, Implements of Husbandry, and effects of every kind, at the lowest Rates of Premium, corresponding to the risk.

Farming Stock is insured without the Average Clause, and loss and damage by Lightning thereon made good.

# The Scottish Provident Institution, FOR LIFE ASSURANCE AND ANNUITIES.

*Incorporated by Act of Parliament.*

No. 14 ST ANDREW SQUARE, EDINBURGH.  
GLASGOW, No. 67 ST VINCENT STREET.

THE ONLY OFFICE IN WHICH THE BENEFIT OF MUTUAL ASSURANCE CAN BE OBTAINED AT A MODERATE PREMIUM.

The Assured are at the same time specially exempt from personal liability.

The Premiums are about a fourth lower than in the other Mutual Offices,—so that the same premium which at age 30 is charged by them for an Assurance of £1000, will secure a Policy, in this Office, for £1230.

The whole Profits are divisible among the Assured, on a new and equitable principle, peculiarly favourable to good lives.

That principle is, *that the Surplus should be reserved for those members whose Premiums, with accumulated interest, amount to the sums in their Policies*, instead of being frittered away among Policies of short duration, on which there is a loss, and not a profit, to the common fund.

At the first investigation in 1845, a surplus of £30,485 was declared, after providing for all Claims.

Resolutions were adopted at last General Meeting having the effect of rendering Policies indefeasible, except on the ground of fraud.

**T**HIS Company is established for the general Insurance of Houses and Goods against loss or damage by Fire; and for the Insurance of Lives and Survivorships.

It originated as a measure of self defence, in consequence of the increased charges for annual premiums made by a general combination of the existing Fire Insurance Companies upon several classes of Tradesmen and others; and offers to the public the security of a large paid-up Capital, with the guarantee of undoubted responsibility.

The attention of Mill-owners is called to the fact, that this is the only office which has reduced the Premiums for Insurances over Mill Property in proportion to the reduced hours of working, in terms of the Factory Act.

With a view to a strictly equitable arrangement in the Life Department, the Directors have had a new set of Tables calculated expressly for the use of this Office, which have received the sanction and approval of one of the most eminent authorities; and being settled in accordance with the experience of the Government Annuities, are now, for the first time, adapted to the purposes of Life Assurance.

Desirous to afford every facility in this branch of their business, the Directors will give credit, where required, for the whole or a portion of the Annual Premiums, during the first Five Years,—the unpaid portion remaining as a charge upon the Policy for such period as may be agreed upon, with interest at 5 per cent.; and further, will receive premiums half-yearly, quarterly, or monthly, as may be convenient.

Special Insurances taken at special rates. Policies will be purchased at proportionate rates.

The Insured on the participation scale, will be entitled to two-thirds of the profits, and may receive the amount in cash, by an addition to the sum insured, or by a reduction of the annual premium.

LOANS granted on personal or other approved security, repayable at such times and in such proportions as may be agreed upon.

Contingent or Reversionary Interests and Annuities purchased.

THE PHOTOGRAPHIC INSTITUTION.

Conducted by Mr BROWN.

IS IN FULL OPERATION,

AT No. 30 UNION STREET, DUNDEE.

*From 10 A.M. till 4 P.M.*

**A** PORTRAIT is taken in less than a minute, and is handed to the sitter ten minutes afterwards in a thoroughly-finished state. Sitters have all the privacy they may wish; they are screened from the gaze of others by an elegant pavilion, and their comfort is in every way secured by the arrangements of the Establishment.

MR B. WILL NOT GIVE FORTH ANY PORTRAITS but such as are correct and pleasant likenesses; those which do not please will be withheld, and the persons will have to sit to the Artist again.

Ladies or Gentlemen desirous of learning this easy but no less beautiful art, may do so at the Institution, or by letter.

Specimens of beautifully-coloured Portraits may be seen at the Institution; also at the Shops of Messrs Chalmers, Mills, Brown, and Dr Drummond.

## THE ABERDEEN MUTUAL ASSURANCE

**T**HIS Society has been upwards of Eighteen years in successful operation, and gives every facility to *all classes of the community* throughout the kingdom, to avail themselves of the special and important advantages which it is enabled to hold out, by the Acts of Parliament under which it is Enrolled, in all and each of the branches of its business, which are conducted on the strictest principles of Economy, Security, and Liberality.

### Life Assurance Branch.

**LIFE ASSURANCES** effected either on the deposit or ordinary system, and affording many **EXCLUSIVE ADVANTAGES** not offered by any other Office in Scotland, among which are,—

1. Policies issued free of Stamp Duty, on Assurances not exceeding £200, on which sum the duty would be £1 in another office.

2. Power to nominate Wife, Children, or Trustees for them, or parties lending on security of the Policy; saving thereby the expense of Deed Stamps and Legal Charges.

3. Exemption from Inventory and Legacy Duties on the death of the Assured, thus enabling the parties nominated to receive the amount of Assurances free of the heavy duties payable when effected in other Offices, varying from £4 to £14 on every £100 Assured.

4. The sum Assured may be protected against the arrest of creditors.

5. Members incur no personal liability, an ample capital being accumulated and invested in Government and Heritable Securities, at a high rate of Interest.

Besides these exclusive privileges, all the other advantages of Mutual Assurance are amply secured to the members. The **WHOLE PROFITS** are divisible every five years; and the Premiums may be paid monthly, quarterly, half-yearly, annually, or in one sum, to suit the convenience of the Assured.

## Life Annuities.

**PRESENT AND DEFERRED ANNUITIES** are granted, on favourable terms. The plan on which Deferred Annuities may be secured is peculiar to this Society, and affords facilities which cannot be obtained elsewhere.

1st. Any sum, from £1 per annum (or 5s. 1½d. per quarter), may be paid for such an Annuity.

2nd. The payments may be continued for such time as the contributor pleases, and the Annuity may then be entered upon.

3rd. At any time before the Annuity is entered upon, the member may receive back the whole of his payments, with accumulations thereon, the amount of which will depend upon the time during which the payments shall have been made.

4th. The amount of the Annuity at any time depends upon the age of the member, and the number of years he shall have paid; consequently, the longer the payments are continued, the Annuity increases very rapidly, as will be seen from the following

### EXAMPLES.

1st. A person at 25, commencing an annual payment of £1, or a quarterly payment of 5s. 1½d., or a monthly payment of 1s. 9d., may, when he is 50 years of age, cease his payments, and enter upon an Annuity of £3 1s. 11d.; or he may continue his payments till he is

It is therefore eminently deserving the attention of provident persons of all classes.

## Fire Insurances

### EXEMPT FROM ANNUAL DUTY.

This Society is empowered, by its enrolment, to Insure all descriptions of Moveable Property, to the extent of £200 on each Policy, *free of the Annual Duty of 3s. per £100.* By its means, and that of "The FRIENDLY INSURANCE SOCIETY OF ABERDEEN," established under the same Act of Parliament, Merchants, Manufacturers, Tradesmen, and others, may Insure their Stock in Trade, Goods, Merchandize, Furniture, &c., to the amount of £400, to a single individual, free of the above duty. Thus—

|      |                    |           |                                                       |
|------|--------------------|-----------|-------------------------------------------------------|
| £100 | can be Insured for | 3s. less  | } Than can be done by any<br>other Insurance Company. |
| 200  | "                  | 6s. less  |                                                       |
| 300  | "                  | 9s. less  |                                                       |
| 400  | "                  | 12s. less |                                                       |

And when there are two partners, each may Insure to the above extent, so that together they may Insure £800 for ONE POUND FOUR SHILLINGS LESS than they could do with any other Insurance Office.

The Rates of Premium are the same as charged by other respectable Insurance Companies, viz. :—

|                              |              |             |

| Doubly Hazardous do. . . . . | 5s. do.      |             |

Entry Money to each Society, 2s. 6d. First Year.

These are the only two Offices privileged to grant exemption from duty ; besides which advantage the Whole Profits belong to the Assured, and these are likely to be considerable.

THE distinguishing Principle of this Establishment for Insurance from Fire, is the DISTRIBUTION OF THREE-FIFTHS OF ITS PROFITS AMONG THE POLICY HOLDERS, with an entire freedom from responsibility.

The last Distribution of Profits amounted to TWELVE AND A-HALF PER CENT. on all Premiums paid during the four preceding years, whereby a sum of £42,000 was repaid to the Policy Holders.

These returns form a real saving to the parties receiving them, as THE RATES OF INSURANCE ARE NOT HIGHER than those charged by other Companies.

The extent of business done by this Office is such, that the sums insured amount to nearly SIXTY MILLIONS STERLING.

Policies may be effected with the Office on WAREHOUSES, FACTORIES, and other BUILDINGS, and on MERCHANDISE, FURNITURE, FARMING STOCK, and SHIPS in PORT, HARBOUR, or DOCK, at the usual Rates of 1s. 6d., 2s. 6d., and 4s. 6d. per cent. for *common* risks, *hazardous* risks, and risks *doubly hazardous*.

Losses are in all cases settled with liberality and expedition.

**TO THE PUBLIC.**

---

M. A. Levy would with gratitude,  
Refer to favours past,  
For patronage and great support,  
He trusts will ever last.

His motto is—to do the best,  
To please the human mind,  
And concentrate each graceful garb  
His energies can find.

I cannot satisfactorily with my own ideas of propriety allow another season to emerge upon us, without sincerely thanking my numerous friends and patrons for the abundant favours they have showered upon me during the past period.

It is now some years since I first solicited the patronage of public at large, and made the most distinct promises and assurances at that time, as to the real advantages that would result from purchasing at my establishment. That these have been amply fulfilled is apparent from the simple fact, that my business has increased most amazingly year by year.

Being perfectly convinced in my own mind of the mutual interests which should always exist between a tradesman and public, I have always made it my most studious aim to be both in one, and acting under this conviction I am now fu

determined more than ever, to advance, as a Tradesman, the interests of those on whom my own entirely depend. With these opinions firmly engendered in my mind, I once more, therefore, with confidence solicit a continuance of those distinguished marks of public approbation, and, I pledge myself, that, although the past produced great wonders, yet, the future shall perfectly eclipse it. In order to achieve this great object, every alteration, novelty, style, design and talent, will be brought into the most active state of preparation, so as to produce such a series of fashionable garments, as no other house in the kingdom can ever attempt to equal. Delighted as I have felt with the numerous encomiums which have, from time to time, been past on the extraordinary advantages, with which my establishments abound, yet, I can confidently assure my friends, that they will, in future, derive every additional benefit, and of such a nature as it will make it of the highest importance, for all classes to purchase their clothing at my Emporiums. In conclusion, allow me, most respectfully, to return my sincere thanks, for all *favours past*, and firmly relying with the utmost confidence for the *future*, for which no exertions shall be wanting on my part to merit a continuance;

I remain, your Obedient Servant,

## DRESS AND SURTOUT COATS.

In drawing public attention to this particular article of dress, M. A. Levy wishes to observe that no expense is spared in procuring the best cutters, also he employs none but the best workmen, he is thereby enabled to ensure to his patrons, a splendid fit combined with first rate workmanship, and being constantly in the manufacturing districts, selecting his cloths at the makers, he can therefore offer his garments at prices below any other house, which the following scale of prices will fully show.

## TROWERS.

In naming the above, M. A. Levy begs to inform his patrons, that having engaged cutters of un- doubted ability, he can safely guarantee a first rate fit in this particular part of dress, which is never to be obtained from inferior and small

establishments, as their trade will not allow them to pay the expense of an experienced cutter, but M. A. L. has selected one who makes trousers his peculiar study, and has obtained a reputation unequalled in this country.

## SHOOTING COATS.

### A DIALOGUE ON SHOOTING!

- "How is it, now, Charles, that my sport is so bad,  
I've shot many times—not a bird have I had!  
This coat is so tight: that in vain do I point,  
I seem as though shackled and screw'd in each joint."
- "Why, really, 'tis strange, but I once was the same,  
And I found that my tailor alone was to blame;  
He knew not the 'science' required in a 'coat,'  
He spoil'd me a day of most excellent sport!"
- "Why, Charles, by my faith, that's exactly my plight,  
But how would you act—tell me honest and right?"
- "Why go to M. A. LEVY'S—his 'coats' are the best,  
This truth by all sportsmen is daily expressed;  
His 'style' and 'proportion' so well coincide,  
A sportsman in them can at all times confide!  
A shooting coat, Mark, is of import so rare,  
Success much depends on the garb that you wear!"

M. A. LEVY has great pleasure in drawing public attention to his splendid assortment of JUVENILE CLOTHING, which exceeds in beauty and variety any other establishment in the kingdom; and anxious as the Proprietor of the Cosmopoleion has been to produce the very best description of Clothing for adults, yet he has not forgotten the claims of Juveniles; and their Clothing usually being one of the most expensive items in expenditure, but upon perusing M. A. LEVY's List of Prices, will be considered reduced to one of the cheapest.

## MOURNING.

How often have we heard in our walk through life of 'making mourners pay while the grief is green,' making bereavement more bereaved by imposition. M.A. LEVY'S system is a sufficient guarantee against such inhuman practice, and offers the consolation to those in affliction of having their orders executed with punctuality, and of superior materials, for nearly one half they have hitherto paid.
